

Clocks

Lil Reese

The toughest niggas acting hard giving niggas time
But I'll never drop a dime switching on one of mines
Knew you really wasn't gonna ride but I seen the sign
On point you better tote that iron
On point you better know who ridin
On point you better know who slidin
Throwing clocks out the window
I'm trying to make the time fly

Throwing clocks out the window
I'm tryna make the time fly
Fuck with me it's either you or I
Don't think it's sweet boy just know we gon slide
We get the load we gon slide
In my city you know the murder rise
Still in the trenches with the guys
I'll never switch on my guys
If I run up with a Covid mask
One false move we gon blow that ass
That bitch know me I don't know her ass
If this is a race you better not come in last
Are they gonna be like he was on the rise
I'm locked in eyes on the prize
Don't play with them cause they'll Blast
I react of shit real fast
Grew up where they kill at you know where it get real at
We don't feel that

The toughest niggas acting hard giving niggas time
But I'll never drop a dime switching on one of mines
Knew you really wasn't gonna ride but I seen the sign
On point you better tote that iron
On point you better know who ridin
On point you better know who slidin
Throwing clocks out the window
I'm trying to make the time fly

Throwing clocks out the window yeah yeah yeah
Daydreaming I just stare into the glare
Watch my back they can come from anywhere
They gonna try even though they can't compare
Stay on point
Look who round with you
Don't make no noise
Til they slide for you
I was trying to let it go but they ain't let me
I figured I'd tell them the truth but they ain't ready
I came on point
Left on point
I did what I did
They left me no choice
How you acting hard
You given out time
I don't know how you do yours
But I can't switch on none of mine

The toughest niggas acting hard giving niggas time

But I'll never drop a dime switching on one of mines
Knew you really wasn't gonna ride but I seen the sign
On point you better tote that iron
On point you better know who ridin
On point you better know who slidin
Throwing clocks out the window
I'm trying to make the time fly

Throwing clocks out the window
I'm trying to make the time fly
Throwing clocks out the window
I'm trying to make the time fly, fly, fly
