

No Matter What

Lil Reese

No matter what how it go
At any place
If you treat it like a race I come in first place
And if 12 grab you you better not know a face
No face no case
You know I fucking beat the case
I give that word they fuck around get you today
Anytime any place however you want it any place
You bleed I bleed anytime any place
12 asked what I seen I be lying
Like I ain't seen a face

No I ain't seen a thing
Make a scene a very scary scene
KI with a theme
Switch with a beam
Knock a nigga out his jeans
12 asked what I seen
I ain't seen a thing don't ask me shit I don't know a thing
Go hard for the team
I tote anything
Playing with the team
Now you dead on the scene
Is you or me
They'll get you for free
They'll get you for me
On my Block we play D
From that block we play for keeps
That's all we know in these streets

No matter what how it go
At any place
If you treat it like a race I come in first place
And if 12 grab you you better not know a face
No face no case
You know I fucking beat the case
I give that word they fuck around get you today
Anytime any place however you want it any place
You bleed I bleed anytime any place
12 asked what I seen I be lying
Like I ain't seen a face

No matter what how it go
At any place
If you treat it like a race I come in first place
And if 12 grab you you better not know a face
No face no case
You know I fucking beat the case
