

Baby Come Back

Lil Rob

I need you (back)
I love you (girl)
I want you (back)
(Girl let me come back) I just can't go on without you girl (j
ust let me come back)

Kicked out of my girls past to bad I deserved
That but I did I popped of at the mouth like
A kid and now I think about the consequences
Of how I make her feel and why I'd make
Her feel like that when she loves me for real
For real that's the real deal
I love her to but you could probably never tell by the
Way she was spoken to and the way that I treated her
She don't need that especially when she takes care of me
When I'm needing her I need her now she ain't around
I'm feeling down and I feel like I'm losing my mind
Were together all the time I can't stand the separation
Why would I wanna cause her all this aggravation
It's a frantic situation now I'm waiting and I'm wishing
Hoping that she give me a call I keep on thinking that my
Phone is ringing who am I kidding it isn't ringing at all (just
let me come back
