

# Everywhere I Go

Lil Rob

[Intro]

Yeah that's right  
It seems like everywhere I go  
I got these mothafuckers watching me  
Trying to check what I'm doing and shit  
You know?

[Verse 1]

Ain't nothing gonna change my ways  
Always been Fleetwood  
49 and six trey  
Purple hazes  
Even before I came up age  
I was send back in my ways  
Way back in my days  
I use to do it like my brother will do it  
Now I do it like no other can do it  
Same vato no difference  
I'm still the same little ese  
That can snap in an instance  
So don't be taking my kindness for weakness  
Been praying that Jesus will pick up the pieces  
Me voy cambiar mis motos  
Don't stop till we control  
Controlamos todo  
He look like a cholo  
Oh no he can flow though  
See em in his low low  
He's always on the go though  
Pinche vato kinda loco  
In the coco  
You can hear it in his vocals

[Hook]

Everywhere I go  
I already know that they're just watching me  
And I get no privacy ( No oh oh)  
Everywhere I go  
I already know that they're just watching me  
But they're ain't no stopping me

[Verse 2]

Yeah you got it twist it upside down  
Let me take it and flip  
So it's the other way around  
Miralo look at what he found  
The flow is cold and gold like my crown  
Bottoms up order another round  
Homeboy it's about to go go down down  
I'm not playing I'm just tryna clown  
I been around  
Keep your ears to the ground  
To the streets to the concrete  
Back to wear I started  
Back to the swap meet  
Never robbed beat  
Never roll with a posse

Over and out  
Don't ya copy  
Put away your sharpie  
No matter how hard you try to be  
You're not me  
You're sloppy  
Trying to be glamerous flossy  
Ima keep it OG homie watch me

[Hook]

Everywhere I go  
I already know that they're just watching me  
And I get no privacy ( No oh oh)  
Everywhere I go  
I already know that they're just watching me  
But they're ain't no stopping me

[Bridge]

Everywhere I go  
I already know  
They got me in their sight ese  
Mad at me cause I'm nice with the mic ese  
Everywhere I go  
I stay on the low  
I gotta stay low key  
Homie you don't know me

[Verse 3]

I see you looking staring  
And watching me constantly  
Full of animosity  
Instigator impersonator  
Troublemaker Imitator player hater  
And fakers caught the vapors  
I got the weed  
Who gots the paper  
Let's light another one up  
These vatos say I can't speak  
And i'm not giving a fuck  
No matter I keep on walking  
They keep on watching  
And no stopping  
I keeps it poppin'

[Hook]

Everywhere I go  
I already know that they're just watching me  
And I get no privacy ( No oh oh)  
Everywhere I go  
I already know that they're just watching me  
But they're ain't no stopping me
