Lil Rob

I
I get carried away
Overthinking every word you say, babe
Am I going insane?
'Cause we
We are one and the same
We're feeling feelings that will go away
When morning comes, oh

When morning comes
When morning comes
When morning comes, oh
When morning comes

Maybe I'm just tired
Maybe you're just hungry
Maybe we're alright
Maybe this is nothing
Maybe I'm just tired
Maybe you're just hungry
Maybe we're alright
Maybe this is nothing
Maybe this is nothing
Maybe this is nothing
Maybe this is nothing

You
You've got me pinned to the floor
Say you're ready to walk out the door
Just stay a second more, whoa
'Cause we
We are one and the same
We're feeling feelings that will go away
When morning comes, oh

When morning comes
When morning comes
When morning comes
When morning comes

Maybe I'm just tired
Maybe you're just hungry
Maybe we're alright
Maybe this is nothing
Maybe I'm just tired
Maybe you're just hungry
Maybe we're alright
Maybe this is nothing
Maybe this is nothing
Maybe this is nothing
Maybe this is nothing

I know we're going nowhere fast
Give me a reason to believe
That this moment should last, oh-oh
