

Keep On

Lil Rob

Aye I've been going out
And I've been getting it
Appreciate it all
And never disrespecting it
Proud to be brown
For the brown I'm reppin' it
That's the way it goes
That's a given, that's a definite
Take your step and put some pep in it
These vatos talk a lot of shit
But I won't step in it
It's not my business
It's not my thing
That's what they do
I stay away
That's what I'd do too
If I was you foo
But you gonna do you though
It's just another crudo
Another bowl of menudo
Another crab up in that bucket
Tryna crawl out till the day
That he gives up and says fuck it
I didn't know about the bullshit
And there's a lot of bullshit
A lot of he say she say
A lot of fools that ain't gon' do shit
And a lot of vatos that will
And I ain't tryna stick around for when them vatos get I'll
Fuck that

Hey man just keep on doing it
And man I love what I do
I'm chicano and I'm rocking for you
Till the day that I'm thru

Shit I've been doing this since ye high
I would just get way high
I'm so high I'm so fly
When I scrape behind the low ride
And I still got the 4-5 bringing out the 4-5
Live my life like x-side
Keep it all the way live
I'm all the way lit
Homeboy I was made for this shit
Il take an oldie and loop it
Then add some bass to that bitch
Then add a snare and a clap
Then add a lil rob rap
Simon I bust it like this
Because they like it like that
And that's the way I dig it too
So as a matter of fact
I always got to keep it true
That's why my rap is my rap
The front and back on the lack
I hit the switch from the left and

Put it in the street
I mean that's just how we do on the west
And left side where it feels so right
That's where I am tonight
That's where I live my life
Por Vida for life
You do your thing
And I want nothing to do with it
If I did it once I can do it again
And keep on doing it

Hey man I just keep on doing it
And man I love what I do
I'm Chicano and I'm rocking for you
Until the day that I'm thru

Hey man I just keep on doing it
And man I love what I do
The good thing is that I'm good at it too
Like everything that I do

In a lowrider
Sit a little slower
Drive a little slower
I stay on the low like a 6'4
Hit it on the floor
They get what I give em'
I always leave em' wanting more
And I keep on doin it
Again and again
Keep on doin it
Again and again
Keep on doin it
Again and again
Keep on doin it
Again and again
Hoping it never ends
