

## Other Side

Lil Rob

Life can be short or long  
And love can be right or wrong  
Let's take a trip to the other side  
The other side, the other side  
The other side

Everybody talking Lil' Rob this, and Lil' Rob that  
Well there's a man behind these shades, babydoll you better believe that  
A man who can make up his own mind  
When I see something bad I wanna make things all fine  
But that's all in time  
And there might be some times where I need some time to get away  
That's when I spread my wings and I fly away  
Far away from all this mess, from all this stress  
Hey out there keeper of the dreams, bring me happiness  
God bless all those who died in the war of the streets  
God bless mis suelas, I love you, rest in peace  
Feel the breeze, see the breeze ruffling through the trees  
Falling leaves, memories stick with me like felonies  
I'm deep like my sleep, if I'm sleeping please don't wake me  
Cuz I'd rather dream my life away and let the angels take me  
Hey hey have you ever tried, ever tried, ever tried  
Really reaching out for the other side, other side

[Chorus x2]

Hey have you ever tried (have you ever tried)  
Really reaching out for the other side, other side, other side  
Hey have you ever tried (for the other side)  
Really reaching out for the other side

Hey look the grass is greener on there other side  
I'll never know until I go, things aren't always what they appear to be  
You can't imagine how things appear to me  
Unexplainable, just like a mystery  
Mind-boggling thoughts of foolishness homeboy that's what this is to me  
Is anybody listening? Is anybody there?  
Hello? Hello? Does anybody care?  
Who am I kinding, it's alright, maybe someday I'll find my way  
But no matter what I do, someone always got something bad to say  
It's ok, it could be worse, you never get hurt, but leave if you want  
Don't get yourself get caught in that spot where you can't leave if you want  
Have you ever been shot? It doesn't hurt, but the after-pain is excruciating  
They all say I was at the point where I was hallucinating  
Ten things I've never seen, Crazy Life at eighteen  
Gang violence going on and Lil' Rob was participating  
That's why I trip on these fools saying I've never paid dues  
Hey have you ever tried really reaching out for the other side

[Chorus x2]

The other side's in hand's reach, how come I can't reach  
Maybe I'm not supposed to be there, Lil' Rob on the beware  
Never will I be scared, I cross my heart and hope to die  
Stick a thousand needles in my Goddamn eye  
Fools like me should multiply  
Fools like them all should die  
Take that back that wasn't right, rather see them fight for life

Well he's not a fighter so I guess that he's a gonner  
Watch him cry like a toddler making big puddles like water  
I'm on the boundaries of good and evil  
People aren't good to me so, why in the fuck should I be good to people?  
The other side, where you put your pot aside  
I'm on the outside looking on the inside  
The flip side, the opposite side  
Where you don't have a fit for any little shit side  
I've got good intentions, please don't let me be misunderstood  
Hey have you ever tried really reaching out for the other side

[Chorus x2]

Life can be short or long  
And love can be right or wrong  
Life can be short or long  
And love can be right or wrong
