

Burn

Lil Skies

Let's burn it down with gasoline, watch the fire, fire
We'll light it up with kerosene, growing brighter, brighter (Woah)
Watch it burn, watch it burn (Burn)
We'll light it up with kerosene, watch the fire, fire (Ayy, ayy, ayy)

Anxiety killing my brain (Brain), I feel like I'm goin' insane (Insane)
And she fell in love with a rock star
(Yeah), she fell in love with the game (The game)
When I was in the back of the cop car
But now they all screaming my name (My name)
It's funny how things ain't the same
Love the music but don't want the fame

Turn it up, u-up, crank up the stereo (Oh yeah)
Now they play my music everywhere that we go
I got my family on my back, I got the world in my hands (Let's go)
Tell the label I'm the GOAT, bitch I need my advance

Now I'm the man, they don't like me (Like me)
I spilled a couple grams on my white tee
I'm shining more than lightning
These demons tryna fight me (Fight me)
I'm 'boutta make a movie like I'm Spike Lee
I know you're gonna watch me

Let's burn it down with gasoline, watch the fire, fire
We'll light it up with kerosene, growing brighter, brighter
Watch it burn (Burn), watch it burn (Burn)
We'll light it up with kerosene, watch the fire, fire (Yeah)

Baby if you seen a million dollars
Blind head, lookin' like she Madonna
This a Beam', no this isn't a Honda (Ayy)
Live a dream, and I do it for momma (Ayy, ayy)
Run it up, I'ma do what it takes
All gas I ain't takin' no breaks
Puff, puff, take this smoke to the face
Livin' fast like I'm stuck in a race

Live a cold life
Know my liver ain't right
Yeah, I hit it one night
I don't wanna hit it twice
I'ma book shawty a flight
But she cannot be my wife
She a diamond in the sun
I like to watch her shine bright

Let's burn it down with gasoline, watch the fire, fire (Woah)
We'll light it up with kerosene, growing brighter, brighter
Watch it burn (Burn), watch it burn (Burn)
We'll light it up with kerosene, watch the fire, fire
