Roll up get high with me, so come inside with me
I'm on some other shit, might fuck another bitch
I ain't the type to switch, girl you know what it is

I see it in your eyes, you look so mesmerized
I'm rollin' off the wood, the gas we smokin' good
Yeah I'm misunderstood, we got that understood
She's wetter than a dream, got cream like Dairy Queen
Yeah she know what I need, my bitch got what I need
She pull up in a Benz, don't really fuck with friends
We at the top again, no you can't box me in
I ball like McGrady, smokin' 'til I'm lazy
They can never change me, say I'm going crazy
I love being faded, that shit help my patience
Say she wanna take it, now she getting naked, hey

Okay I'm riding in my coupe, you a lame
You know I'm in another lane
Two hands on the ride even though she got a ring
Hit her all night, let her take away the pain
I got money on my mind, now I'm 'bout to make it rain
Know you wanna ride but I gotta catch a plane
I don't wanna bride, I ain't even mary jane
I don't wanna lie, you and me we ain't the same
She a runaway train, that's a thottie on the loose
She won't leave me 'lone, girl you probably off the Goose
Why you in my phone, I got better shit to do
I don't wanna die alone so I keep her in the loop
