

Pop Star

Lil Skies

Know

Girl, I just gotta know

Know

Girl, I just gotta know
Are you in it for the dough?
I'mma have to let you go
I can't trust you, little hoe
Live your life like a pop star, yeah
She like to party with a rockstar
I'mma let her play and pull the strings like a guitar
Tatted on my face in Japanese, I got a cold heart
Drivin' in that foreign, there's no keys
You gotta push to start

Yeah, pockets so heavyweight
Chant me like Ali the great
Love when she give me face
Movin' in and outta state
What I'mma do today?
Hit the store, pick up lil bae
Shop like a holiday
These niggas can't hang with us
They tried to drop a bag and we left them in the dust
I got my brothers in this bitch and we don't talk too much
You get to fassin' out yo lip, get hit with uppercuts
We all around the map
Nice cars we be swervin'
I'm bossed up with a purpose
And they used to think I was worthless
Now they all on me like I'm perfect
And she's not the type to be nervous
Been gettin' money you learnin'
You stuck in a shell, I'm no hermit
I want more green but no kermit, huh

It's your life
Try to live it up in one night
Never let nobody change your mind
Sometimes you gotta make a sacrifice

Girl, I just gotta know
Are you in it for the dough?
I'mma have to let you go
I can't trust you, little hoe
Live your life like a pop star, yeah
She like to party with a rockstar
I'mma let her play and pull the strings like a guitar
Tatted on my face in Japanese, I got a cold heart
Drivin' in that foreign, there's no keys
You gotta push to start
