

# Red Wine & Jodeci

Lil Skies

Yeah (Yeah, oh-oh-oh)

And it go like, yeah, ayy (Danny, I see you)

She said, "You actin' different, hope you notice me" (Yeah)

After we go out to eat, red wine and Jodeci

I think I'm done with this girl, she controllin' me

She think she out of this world, she known locally

You was hangin' with the band, I met you backstage

I was turnt up with the gang and we was tryna rage

I put my weed in the fronto and take it to the face

My car too fast, the cops behind me, they won't even chase

And fuck them people who be hating, I still find it funny (Yeah)

I cashed out and doubled back and I still got this money

Them rainy days made me a man, but now them days be sunny

I made it out, felt like a game in this jungle, Jumanji

I pray to God, forgive me, I sin, I only wanted to win

Niggas be fake and pretend, I can't be lettin' 'em in

She say she love me for me, ridin' drop-top in the Benz

I think I love 'em, they twins, I'll never judge 'em again

She said, "You actin' different, hope you notice me" (Yeah)

After we go out to eat, red wine and Jodeci

I think I'm done with this girl, she controllin' me

She think she out of this world, she known locally

You was hangin' with the band, I met you backstage

I was turnt up with the gang and we was tryna rage

I put my weed in the fronto and take it to the face

My car too fast, the cops behind me, they won't even chase

And I know

Ridin' by myself, I be so

Pockets full of guap, yeah, they swole

Never trust a thot or a ho, I'm always in my glow

But she said, "You actin' different, I hope you notice me" (Yeah)

After we go out to eat, red wine and Jodeci

I think I'm done with you, girl, you controllin' me

You think you out of this world, you known locally

And you was hangin' with the band, I met you backstage

And I was turnt up with the gang and we was tryna rage

I put my weed in the fronto, I take it to the face

My car too fast, the cops behind me, they won't ever chase

(And I know) Yeah (Ayy)

(They know)

(We never trustin' these hoes)
