

ALL THE TIME

Lil Tecca

I swear I do that shit all the time
But I still don't overstep
Tellin' me all that she want is time
But I still don't notice that
Had to do me, yeah, so what?
I know you won't understand
My radar, no sonar
I can see a hundred, hundred

Said she want a nigga like me, yeah
Good luck tryna find me, whoa
Unlikely, yeah
Yeah, they couldn't find me, yeah
Said she want a nigga like me, yeah
Good luck tryna find me, whoa
Unlikely, yeah
Unlikely, yeah

Tried to care and that shit cost me
Ain't nobody did it for me
Tried before but you lost me this time
She goin' fast, how you tryna live like?
Told my squad and everybody glow
If you know, then everybody know
She said, "How you leave me alone?"
Livin' like I did that shit before
I decline when they call away
Yeah, I wouldn't have shit no other way
I go ghost when we ballin', wait
You can tell that we on two different paces
Out the way, I can see that you got two different faces
I know I can't change shit, I take all the blame, shit

Oh my, don't know why
That sometimes I just get high
Don't know, yeah, why I care
Yeah, one life, yeah, one try
One chance, stay up
One life, one love
On me, for sure
Got racks, that's what I love

I swear I do that shit all the time
But I still don't overstep
Tellin' me all that she want is time
But I still don't know this step
Had to do me, yeah, so what?
I know you won't understand
My radar, no sonar
I can see one hundred, hundred

Said she want a nigga like me, yeah
Good luck tryna find me, whoa
Unlikely, yeah
Yeah, they couldn't find me, yeah
Said she want a nigga like me, yeah
Good luck tryna find me, whoa

Unlikely, yeah
Unlikely, yeah
