NADA

Lil Tecca

I been with them choppas (call em)
I just called my gang we in the paint like waka flocka
And if I call my bitch she want nada, nada
Want the money and respect in that order (let's get it)
And the bands on me let's get it
And your bitch on me I get it
Racks gon come wherever baby why you in my business?
And its too much for the feelings
I ain't doing nothing just to fit in
Rather be me than regret it
Too much thoughts all in my head
I don't want to regret them
And I'm steady fighting demons like the devil sent them
Ain't shit gon bring me down only if I let them
But I give them respect cause at least I met them

Oh that bitch you think you had yeah we been knowing
Tecca bitch I been a map I gotta get to it
And when you keep them tricks all up your sleeve no you can't lose it
Please do not be stupid you know me you know I do this (damn)
Niggas they waiting on me they tryna be G no I can't waste my time
Anyone turn on me and we gon see so God better save our bond
Not gon lie if I wasn't me I would talk about Tec cause it sounds so fire
Know you gon believe me, say what I want cause you live in lie

And you live and learn (yeah you live and learn)

She got that cali burn, but I will not marry her
