

SEASIDE

Lil Tecca

I want you to know
If we gon fall off
Then everything we done I can not recall on
She wanna know if we still on one
If I hang up this call I swear I don't know none
And she bored in the meantime
That don't turn to me time
My life is a movie but I swear I'll never rewind
I said we gon be fine
Shawty yeah you decide
I left my spot and I just took her to the seaside

Slide up in that rover the night is over
Bitch I'm feeling lucky that's a four leaf clover
She wanna toast some (then we can toast up)
Brody got that chopper he don't even need no poker I listen how you talk I could it see that you fake
With a goofy ass lame I can't even conversate
I just woke up to a check (yeah) every Friday
It's one thing if imma get it ima get it my way
I want you to know

If we gon fall off
Then everything we done I can not recall on
She wanna know if we still on one
If I hang up this call I swear I don't know none
And she bored in the meantime
That don't turn to me time
My life is a movie but I swear I'll never rewind
I said we gon be fine
Shawty yeah you decide
I left my spot and I just took her to the seaside

I left my wodie and I put my new bitch in a coat
I be on oceanside rolling on my antidote
I be in all designer walking like I run the show And you could keep that attitude I'm on me time
Baby you don't know what you want to say
And if you want to ride we can take the long way
She never made her mind up now its too late And if you tryna find me you know where I stay
I want you to know

If we gon fall off
Then everything we done I can not recall on
She wanna know if we still on one
If I hang up this call I swear I don't know none
And she bored in the meantime
That don't turn to me time
My life is a movie but I swear I'll never rewind
I said we gon be fine
Shawty yeah you decide
I left my spot and I just took her to the seaside
