

TASTE

Lil Tecca

Jeg er ikke doven
Jeg er bare lidt langsom til at fat' hvor'n det er det funger'
Det med at knokle af lyst og blive forløst
(My shawties come different flavors, it's like every day got a different tas-
te)
Alt imens tiden flyver
(How she feelin' today? How we feelin'?)

You made a wish anyway better not go 'head trippin' over faith
You wasn't promised, you know that you lucky, you livin' for the day
I make it happen, don't give a fuck if it's gon' take a hundred takes
And my shawties come different flavors, it's like every day got a different taste
Yeah, how I'm feelin' today? How she feelin' today?
How we feelin' today? I could make sure you straight, yeah
Oh, we cashin' out? That's how you feelin' today?
What you mad about? You know I could make sure you straight, yeah

Right, know we on two different timings
And she want a nigga just like me, yeah, good luck just findin' him
I find a nigga just like me, I'm fuckin' 'round, signin' him
You told me that I could get rich off of talkin' my shit and you think I ain
't signin' up?
Just let me know, baby, you know I could take control, baby
You know I got a problem havin' patience
You know I got problems with concentration
I see that you dealin' with motivation
And fuck motivation, we every day here
I done had bad days and better days, yeah
Either way, I'ma still medicate, yeah

Know you wanna see, but it's over
Just call me when you sober
But you still can't come over
No OT, yeah, I told ya
That's on me, can't fold, yeah
Wearin' all green like Yoda
Say that you want no one
Still tryna get a lil' closer

You made a wish anyway better not go 'head trippin' over faith
You wasn't promised, you know that you lucky, you livin' for the day
I make it happen, don't give a fuck if it's gon' take a hundred takes
And my shawties come different flavors, it's like every day got a different taste
Yeah, how I'm feelin' today? How she feelin' today?
How we feelin' today? I could make sure you straight, yeah
Oh, we cashin' out? That's how you feelin' today?
What you mad about? You know I could make sure you straight, yeah

You made a wish anyway better not go 'head trippin' over faith
You wasn't promised, you know that you lucky, you livin' for the day
I make it happen, don't give a fuck if it's gon' take a hundred takes
And my shawties come different flavors, it's like every day got a different taste
And my shawties come different flavors, it's like every day got a different taste

And my shawties come different flavors, it's like every day got a different taste
And my shawties come different flavors, it's like every day got a different taste
And my shawties come different flavors, it's like every day got a different taste
The last time I called was the last time, for real
Well, just hit me when you're ready to figure this shit out
You're always saying it's not the right time
To talk, you're always doing this weird shit
So just let me know when it's not a bad time
