

YOU DON'T NEED ME NO MORE

Lil Tecca

I bet you hit me now
I don't need no sound
Baby finna go down we just been riding around downtown
Everything might last, everything might get better, everything might
pass Everything might go up for real
And I don't even talk on how I feel
And she said you don't hit me no more (that's how I feel)
You could tell me what's wrong (yeah)
Imma stick by the code
You don't need me no more no more no more
Baby, you don't need me no more no more no more
Baby, you don't need me no more no more no more
Baby, you don't need me no more no more no more (yeah)

We been steady on top (yeah)
I can't love no thot (yeah)
Everyday get guap (yeah)
They wanna borrow my bop (yeah)
I been worried bout a vibe
You been worried about a lot
But I got a lot on my mind
And that's one thing you not (on)
Bad bitch like a popstar
Real shooters they gon hop out the car
See them mad, when you on
Kick back like a sawed-off
I know she a eater, shawty she just want the reefer
Replying to all my stories she be like
"Where you at, I gotta see some"
I gotta trap by my lonely I know it's not forever
I know it's not forever
I know it's not forever
I know I gotta do better
Ain't nothing but an a-list
I could do all the hashtags, but that shit just basic

I bet you hit me now
I don't need no sound
Baby finna go down we just been riding around downtown
