Ice Cold

Lil Tjay

This world is so ice, this world is so cold (So cold)
This world is ice cold (Ice cold), this world is ice cold (Ice cold)
This world is so ice (Ice), the world is so cold (Cold)
This world is ice cold (Ice cold), this world is ice cold (Ice cold)

I swear I got plenty niggas mad, never comin' home
Demons in my head, I got too many niggas gone
Kids out here dyin', mama hurt, cryin'
I ain't even think I'd see eighteen and I ain't lyin'
Jails multiplyin', change shit, I'm tryin'
Murder rate just keep on goin' up, it's horrifyin'
Cops pointin' fingers, they be misidentifyin'
Pocket of change, honestly don't think it's ever gon' change
Lookin' from my new perspective, I done realize some things
Them streets bad, streets wicked, streets bad, streets wicked
If the ray shot hit you, that's a one-way ticket
Somethin' on like a couple times, 'bout to fix it
I been to myself, I been just stackin' up my digits
All I could do is preach and I hope you niggas with it
So I like to spread the love

I feel your pain, you just wait your turn, no givin' up
Hopefully one day your life see a change
I been to Hell and back a few times
No way that it get back, I don't mind
Tired of this pain, tired of this pain

Tryna balance the perfection in my life and do some good one
Never knew my father, momma told me I'm a hood son
I've livin' through a lot of rough times, it was hard
That just one of the reasons I'ma take it so far
So much shit that I hold back, memories cold facts
They just took my nigga, he got caught up with no strap
It's just been so whack, I just want bro back
I swear to God, we livin' in a cold, cold world
Take it to the face to calm my feelings, I'm a stoner
Can't go to them trenches, it be hot like Arizona
JT my aroma, city got corona
Sad to say I know like just two niggas with diplomas
First time gettin' sentenced, I was thirteen
First time ever gettin' knocked, I was twelve
When I came home, young nigga, I was fourteen
Went back two more years, oh, wow (Oh)
'Member when they kicked me out of school, got expelled
They said that I won't be shit, I know only time will tell (Woah)
Young nigga goin' up, up, up (Woah)
I know them higher powers lookin' over, that's for sure
So I like to spread the love

I feel your pain, you just wait your turn, no givin' up
Hopefully one day your life see a change
I been to Hell and back a few times
No way that it get back, I don't mind
Tired of this pain, tired of this pain
So I like to spread the love
I feel your pain, you just wait your turn, no givin' up
Hopefully one day your life see a change

I been to Hell and back a few times
No way that it get back, I don't mind
Tired of this pain, tired of this pain
