

# Nobody

Lil Tjay

Sometimes I'm missing you, missing you  
And I would do anything to bring you back to me  
Sometimes I'm missing you, missing you  
How can I bring you back to me?  
Sometimes I'm missing you, missing you  
And I would do anything to bring you back to me  
Sometimes I'm missing you, missing you  
How can I bring you back to me?

Been slidin' all year, I don't know when this finna stop  
It could be a little longer, don't know when this finna drop  
All I know is I'ma grind, do me, and you could watch  
Sit back, they gettin' hurt about me sittin' at the top  
If I went broke, they'd be like, "Oh well, how you lose your spot?"  
The industry could cancel me, I can't be who I'm not  
And I don't care for you to understand every line I drop  
Just know I came from nothing, my garage is like a lot  
They be fakin' views, bots, fuck the band, who's hot?  
I'm exactly who I say I am, pussy, you's not  
We don't pick and choose shots, go for anybody  
Tryna act up, don't spare nobody

Nobody, nobody  
Back to the wall, it was nobody  
Nobody, nobody  
Nobody

If I ain't see that boy perform, I'd play death  
Nowadays you gotta put niggas to the test  
How is you my brother and you sayin' you gon' step?  
Nigga shot me in my neck and you left  
Five in my chest, no one around  
I couldn't picture nothin' but you holdin' me down  
It was nobody, it was nobody and nobody, yeah  
Trauma in my head, but I smile for the flicks  
Mama hurt knowin' my life wild as a bitch  
This the shit I spent a hundred thousand for this  
Chains bust, bitches goin' wild for the glitz  
One of them niggas, yeah, that's they reason why they hate me  
That's one the reasons why I can't walk with it on safety  
I'ma stack every change given, can't pace me  
I can't let a nigga bake me

Nobody, nobody  
Back to the wall, it was nobody  
Nobody, nobody  
Nobody

Nobody, nobody  
Fuck it, I got used to havin' nobody  
Nobody, nobody  
Cold night, we ain't got nobody  
Nobody, nobody (Who is that with you? Nigga, nobody)  
Sittin' in the starlight, nobody  
Nobody, nobody (Never havin' nobody)  
Never havin' nobody, yeah
