

Same Friends

Lil Tjay

I'm still with the same friends
Out here with the same bros
We still out here mobbin'
It's just in a Range Rove

Made it with the same guys
Now we different bankrolls
Now we all in designer
Driving past the same hoes

I'm still with the same friends
Out here with the same bros
We still out here mobbin'
It's just in a Range Rove

Made it with the same guys
Now we different bankroll
Now we all in designer
Driving past the same hoes

Yeah told you I would never change and shit
Young Charlie yeah he the same and shit
I'm out here gunnin' it
On a Friday, got in the name and shit
Champagne in my hand Imma spray that shit
My dogs gon' dance on the stage and shit
Throwing up shots on the pavement
Same old roads I'm claimin' it

And I'm with all the ones from the jump
Now we do what we want when we want
It'll be that way till I'm gone
Till I'm gone, till I'm gone
Till I'm gone

I'm still with the same friends
Out here with the same bros
We still out here mobbin'
It's just in a Range Rove

Made it with the same guys
Now we different bankroll
Now we all in designer
Driving past the same hoes

I'm still with the same friends
Out here with the same bros
We still out here mobbin'
It's just in a Range Rove

Made it with the same guys
Now we different bankroll
Now we all in designer
Driving past the same hoes

Fuck all these bitches I know they want part of
I know they want part of my money

No dummy I rather them eat
It's hard to know when they like you for you
If it's my music then how am I unique?
I know I'm young and I'm fly with the heat
Gotta value myself so I won't even eat
Pussy boy nigga be savage through tweets
If I give a response, I be win and repeat

I know I make it look easy
But I'm focused ain't no time to slack
Trying to go for my bro I'mma clap
When I told you I love you, ain't none of it cap
At the top with my brother, we made it
Still be with my day one's, this ain't dated
Just a couple of niggas, they faded
From the jump, I been solid, I played it

I'm still with the same friends
Out here with the same bros
We still out here mobbin'
It's just in a Range Rove

Made it with the same guys
Now we different bankroll
Now we all in designer
Driving past the same hoes

I'm still with the same friends
Never thought we'd live like this
We out here blowing through them stop signs
Riding shotgun through the sticks

Don't need no one but my same guys
Out here getting bankroll
We still out here mobbin'
It's just in a Range Rove
