Lil Tracy

Yeeeeaaaah

GothBoiClique, GothBoiClique

Dressed in black tonight, dressed in black tonight

Switchblades tonight, switchblades tonight

When I shut my eyes I can see what used to be

Dressed in black tonight, switchblades tonight

I could never cut someone like the way you cut me

GothBoiClique, black Gucci

I wish you loved me like you did Xanax

Did you forget the time, did you forget the time

Did you forget the time you wiped blood from my nose?

Here's one kiss, baby, here's one rose

I can see the future, but I don't see you

Mercedes Benz, drivin' away from you

Drivin' away from you
