

God damn, man, I don't even know what to do, I really miss her  
Yung Bruh, you don't need anybody, bruh  
Real shit  
I don't know, I just  
Yung Bruh  
Something about her, man, something about her soul  
Yung Bruh, listen  
Something that attracts me  
Forever boy, you don't need nobody, you got yourself  
I see her and, you know...  
Yung Bruh  
I just really wanna hold her, I really wanna... you know?  
Yung Bruh, just listen  
Nah  
You're a king, Yung Bruh, you're a king, you don't need nobody  
You say you know but you don't  
You got yourself  
Yung Bruh, you're eternal  
These mortals, they don't know, bruh, just... just fuck it

I never lie awake wondering who to blame  
My emotions never change when someone says your name  
I never smoke weed to try and numb the pain  
I never think about calling your phone  
I been feeling great since I've been alone  
I never think about how things could have gone

I never wonder if you think 'bout me  
I never wonder when you fall asleep  
I was in the forest tripping LSD  
I swear to God I seen you but it was a tree  
Ever since you've left, I've been researching  
Practicing dark magic, doing evil things  
I've got my computer I don't need no friends  
I need to get you out my brain before I shoot that shit  
Looking out the window, contemplating life  
I never reminisce, on when we first met

Niggas asking questions, I say nothing's wrong  
Little do they know, I have a broken soul  
Stupid ass hoes texting on my phone  
I swear to God I never think 'bout how our love is gone  
Damn, I'm stressed out, let me smoke some dope  
We was s'posed to shine, bitch, we s'posed to glo  
I'm gon' still do that, you could be a hoe  
Don't try to come back but I can't say no  
Drowning in emotions and I cannot float  
Now it doesn't bother me that I lay alone  
My OG said, "Bruh, you can't change these hoes"  
I said, "You don't understand" then I hit the door

I never lie awake wondering who to blame  
My emotions never change when someone says your name  
I never smoke weed to try and numb the pain  
I never think about calling your phone  
I been feeling great since I've been alone  
I never think about how things could have gone
