TORESHII

I can't believe my eyes right now  
I saw a demon in my house  
On the highway to hell and I'm goin' a hundred miles  
I know they want me to fail, don't give a fuck, I'm ballin' out  
I bought a castle in Beverly Hills  
This life is crazy I forgot how to feel  
I know I broke your heart, but girl, I swear it'll heal  
I'm back on drugs again  
I got lean in my cup again  
I hope I never wake up again  
I don't ever wanna see the sun again  
Don't compare me to none of them

I'm a goth boy (Yeah), not a sad boy (Yeah)  
Got a Glock boy, shoot it at your hat, boy (Grrah)  
You just a fanboy, you're not a vampboy (You're not a vamp)  
I've been spendin' all these bands 'cause I can, boy  
These niggas just talkin' like me, stop  
Bottega Veneta, no Reeboks  
My bitch hot, like a tea pot  
Spit on that dick, she beat-box  
I'm gettin' this money, I won't ever stop  
My hundreds are blue, like the motherfuckin' cops  
Ridin' 'round in foreign cars  
Look up and you see the stars  
Love hurts, I know you got scars  
Girl, you look so good inside my arms  
Demons knocking on my door  
But I can't even answer 'cause I'm on tour

I can't believe my eyes right now  
I saw a demon in my house  
On the highway to hell and I'm goin' a hundred miles  
I know they want me to fail, don't give a fuck, I'm ballin' out
