

## I Remember

Lil Tracy

'Member I was out there on the curb  
I was staying all the way down, I was tryin' to get some money, yeah  
Runnin' from the police, I was servin'  
I was workin', I was splurgin' and I never been no dummy, yeah  
Jumped off the porch and I got me a strap  
I remember when I made my first cap  
Mama told me you gon' shine like a lamp  
Country boy comin', I just made a cap  
I don't want that bitch have her back  
Cali gonna give me an asthma attack  
I used to sleep on the floor on my back  
I started rappin' then it was a wrap  
I remember I was standin' in that cold  
Now I'm sliding down Melrose  
Porsche whiter than some cocaina  
I remember, I remember, I remember  
Hoes used to play me now they see me, want a picture

Fuck all the fake hoes and fuck all the dap  
I'mma stay down, put my name on the map  
Used to be so broke I slept in the trap  
I started rappin' and it was a wrap  
Shit get crazy, but you gotta stay humble  
If you don't play crazy you get blocked like Mutombo  
Raised in the A, I grew up in the jungle  
Stayed out the way and turned nothin' to somethin'  
Better get up and get off of your ass  
I ran it up and I know why they mad  
I can't be cuffin' that bitch cause she trash  
Hopin' out foreigners and we doin' the dash  
Don't want no pennies like Jason  
Speed to the money, I'm racin'  
Bitch it's lil duke and lil tracy  
And we gettin' high like the 80s  
Been havin' cash and they know we ain't basic  
I popped a perc and I turned to the Matrix  
Pull up we dabbin' at every occasion  
Then I blew up, they were shocked like a taser  
Cuttin' it up man I'm sharp like a razor  
Bitch I'mma ball and they know that I'm major  
I just can't go away like an eraser  
Purple and yellow, I'm mixin' that Lakers

Yeah yeah, she gave me throat like a scarf  
You know its Gosha my scarf  
I couldn't afford McDonalds  
Now I forgot how to starve  
Might buy my sister a car  
Buy me a house it's gon' have an alarm  
Ice on my wrist like I broke my arm  
I'm different from y'all, I might be from Mars, yeah  
I'm not bein' your friend, I got family  
I was outside was you standin' with me?  
I fucked on her friend, she can't stand me  
I want a million, fuck a grammy  
Hopped in the Uber and popped me a xanny  
I fell asleep woke at your bitch house  
When I pull up she pulled down her panties  
Yeah I dropped out of school, but I learned  
Niggas said they were down, but they weren't  
I'm the reason your girlfriend is flirtin'  
She suck on that dick with a purpose  
I'm so hot I could sit in a furnace  
Remember when I wasn't shittin', it hurt  
Now I got some ice in my teeth, Margiela my shirt
