

Not Breathing

Lil Tracy

She broke my heart left it in pieces
I fell in love with my demons

She broke my heart left it in pieces
Why should I breathe tell me the reason
I fell in love with my demons
They love you more when you're not breathing

I see the stars
We're so distant baby, when we're apart
fall into your arms
I call because I'm scarred
I know that it's hard
We're falling apart

I've come so far
I need

Been down the halls of my old school
Now I got more racks than my principal
Oh you want me now?
What about back then
Now it's my time I don't want new friends

I don't want new friends
I know in the end I'mma pull up in a benz
This is how it ends
This is better off dead
I think there's something wrong
Something wrong with my head

She broke my heart left it in pieces
Why should I breathe tell me the reason
I fell in love with my demons
They love you more when you're not breathing
She broke my heart left it in pieces
Why should I breathe tell me the reason
I fell in love with my demons
They love you more when you're not breathing

With my demon

She broke my heart left it in pieces
Why should I breathe tell me the reason
I fell in love with my demons
They love you more when you're not breathing
She broke my heart left it in pieces
Why should I breathe tell me the reason
I fell in love with my demons
They love you more when you're not breathing
