Uh, uh

In your room, playin' round fair

I ain't never playin' fair, never playin' fair

Seph got the waves

I ain't never playin', uh, yeah

YK

I ain't never playin' fair, never playin' fair  
My heart never been a playground, don't play there  
I ain't never playin' fair, never playin' fair  
My heart never been a playground, don't play there, uh  
Lookin' at your face, tryna not act scared  
I can't take no more of the pain, baby, don't you dare  
I was thinkin' we should play a game, truth or dare  
Is it true that you may be a real one? No dare

I pray to God that I don't feel numb  
Really gettin' tired of lookin' dumb  
Breaking hearts, ain't that fun?  
Especially if you are the one  
I can see the devil on your tongue, tongue, tongue  
It's got an illusion of the damage done  
I always base my future on the past, it's wrong  
Can't help it, I know it ain't healthy  
Icebox as a heart, shorty got it meltin'  
Cupid got the shooter, swish, swish, uh, Raymond Felton  
Hope the hammer goes down, yeah, I already nailed it  
Had to sink the ship here before it started sailin'  
Rain comes down, then it'll get to hailin'  
Smokin' heart, like loud, yeah, I inhaled it  
Shot Cupid down, hit him in the belly  
Got his blood all over my Burberrys

I ain't never playin' fair, never playin' fair  
My heart never been a playground, don't play there  
I ain't never playin' fair, never playin' fair  
My heart never been a playground, don't play there, uh  
Lookin' at your face, tryna not act scared  
I can't take no more of the pain, baby, don't you dare  
I was thinkin' we should play a game, truth or dare  
Is it true that you may be a real one? No dare

Yeah, keep my heart in your Fendi purse (Fendi purse)  
Diamonds are forever, rock my chains in a hearse  
I hate myself but I really love her  
You know we stay fly, guess we're really love-birds  
It's the way you say my name, yeah, I really like that (like that)  
I want this for life and I'ma die by that (die by that)  
Touchin' on her like I touch my racks (racks)  
Playin' with my heart, baby, don't do that  
Ooh, I don't play fair, baby, I could do that too  
I swear my other bitch look just as good as you  
But I could never love her, I could never trust her  
I could only fuck her (I could only fuck her)  
I been sippin' on this red wine (red wine)  
Wondering when I'll die

I ain't playin' fair, no, I ain't playin' fair  
But if you go to hell, baby, I'ma be there (be there)
