

See UFOs through my window
Nobody knows but they exist though
Look up at the sky you gon see those
If only we could fly, I'm in a black hole
See UFOs through my window
Nobody knows but they exist though
Look up at the sky you gon see those
If only we could fly, I'm in a black hole

I'm so fly, I'm in the sky
Unidentified, I do just what I like
Bro got a X6 like it's a UFO
And it got black tints you don't know what's goin' on
She think I'm crazy, she so right
I been up all day I been up all night
It's not a phase baby this my life
Feel like a alien you could see it in my eyes

I feel like Bob Lazar, I'm shooting for the stars
I don't need a car, I'm still goin' far
Spaceship tour bouta' go to Mars
So fucking high never hit the floor
Astronaut space you can't get it from the core
Copy and paste you can't get it from the store
I'm in a black hole yeah I unlocked the door
The universe is big, wanna know more
And I don't care if you don't like me
I'm on the moon I feel like E.T
I'm on the moon, Kid Cudi
I know ya' girl she really want me
