Lil Tracy

Sorry don't work no more
Girl, what you play me for?
Opened your heart and closed the door
I don't care anymore

Sweet angel, Hell is our hometown
If we turn the lights on, she gon' find out
We watchin' Twilight, guess it's time to bite down
She just wanna make up, I just wanna make out
More pain, less love when I'm in town
Let's just keep our distance, don't wanna see your face around
I'm drained, I don't if I'll make it out
No more kisses, sorry ain't gon' cut it now

In the club fucked up when she needed me the most, yeah
It's hot as hell down here, but her heart's where it snows, yeah
It's dark as hell outside, but it feels like home, oh
You were never on my side, I was always alone, oh

Sorry don't work no more
Girl, what you play me for?
Opened your heart and closed the door
I don't care anymore
You say I always change my mind
All these feelings I can't ignore
Hoping that I don't flatline
Everything bad I adore

Sweet angel, Hell is our hometown

I'm drained, I don't if I'll make it out
No more kisses, sorry ain't gon' cut it now

Yeah, sorry don't work no more
I don't wanna see your face again
Everything could've been yours
But, baby girl, you wasted it
This car got two doors
But you still can't get in
This car got two doors
But you still can't get in
But you still can't get in
I should've listened to my friends
The crazy about you is
I would do it all again

Sorry don't work no more
Girl, what you play me for?
Opened your heart and closed the door
I don't care anymore
You say I always change my mind
All these feelings I can't ignore
Hoping that I don't flatline

Everything bad I adore
