

Come Here

Lil Twist

When she walk across the stage
I snapped my fingers three times
It went like, felt like poetry night
Without a single word spoken – her curves did all the talking
I listened closely, she told me "come here"
I get to walking, but not that normal walking
IShowSpeed and start barking
I need that old love, like when you walk down the street with y
our Walkman
We can get married, have kids, move down to Austin – whatever's
comfortable
My arms are open, that's what she run into
I've dreamed of hugging you, touching you, whatever you wanna d
o
Just... come here

Come here, pussy dripping all night long
Come here, I've been waiting on you way too long
Come here, I make her sing my favorite song, ooh
Come here... and I hope you don't take too long

Come here, hurry up and run to me
You can be underneath, and I make that pussy squeak
No, I make that pussy speak, and I listen up, indeed
Shhh, everybody quiet please, I need some time to think
I know that pussy pink, she leak like a running sink
And I get a cup to drink – drink you like water, baby
Fuck with Young Carter, baby, go from the bench to being a star
ter, baby
I'll take you farther, baby – you can be Mommy and I'll be your
father, baby
Let's have a daughter, baby, take after me
Then she gon' be shorter maybe, nothing short of a lady

Ohhh baby, I love the face you make at me when you take "D"
Ohhh lately, in that pussy raging
She tell me "Daddy, please go slow"
I told her "Make me" – she 'bout to hate me, Mula

Come here, pussy dripping all night long
Come here, I've been waiting on you way too long
Come here, I make her sing my favorite song, ooh
Come here... and I hope you don't take too long
