

# Deep End

Lil' Wayne

Look what you done done, yeah  
Play with my heart and told me it's too bad  
And then you hit me up  
I'm tryna talk, you told you hit you back  
It's crazy how you drive me brazy  
I think I finally met my match  
I try to let my mind navigate me  
And end up bringing me right back

I've been falling in the deep end  
You've been giving me no reason  
But I've been drowning in and sinking  
Falling in the deep end  
I've been falling in the deep end  
You've been looking for a reason  
But I've been crawling in and reaching, ooh  
Falling in the deep end, deep end, deep end  
Falling in the deep end, deep end, deep end  
Falling in the deep end, deep end  
Falling in the deep end  
Falling in the deep end

You tell me I'm wrong  
'Cause when I'm right it only makes you mad  
But you want what you want  
But how come I always want you bad?  
It's brazy how you drive me crazy  
I think I finally met my match  
I know that this ain't how my mama raised me  
But I done got too attached

I've been falling in the deep end  
You've been giving me no reason  
But I've been drowning in and sinking  
Falling in the deep end  
I've been falling in the deep end  
You've been looking for a reason  
To dive in all up in the deep end  
Falling in the deep end, deep end, deep end  
Falling in the deep end, deep end, deep end  
Falling in the deep end, deep end  
Falling in the deep end

Falling, yeah  
Falling, yeah  
Falling, yeah  
Falling in the deep end  
It's crazy how she drive me brazy  
I think I finally met my match  
You saying you don't want to see me  
And then you keep looking bad

I've been falling in the deep end  
You've been giving me no reason  
But I've been drowning in and sinking  
Falling in the deep end
