But to be soon, I (I)  
Want to be so high  
High, high, high  
To the moonlight  
But to be soon, I (Yeah, Toni)

Broken English, on Rome, teach you, corrected  
Had to eat with her, had to 'fore I heard of Doctor Sebi

Before I heard of Tesla, I was the plug  
I used to hate when nobody showed me love, come on

Shinin' like the moonlight, full clip for a full moon  
Hotter than the sunlight, summer time, 12PM, noon  
Tyson in the gun fight, Floyd Mayweather in June  
All year round, homie, I hunt with my mouth foamin'  
On the prowl, roamin', fuckin' the world without moanin'  
On the hot corner like Josh Norman since Pop Warner  
Moonlights, the cop lights, the spotlights, they spot on us  
Amen, they better throw some prayers up, hope they land  
I'll give 'em three to they hat before I give 'em a chance  
Satan, sippin' lean like moonshine out they can  
And they ran to the moonlight and ran into the Moon Man, bitch
