

# Off, Off, Off

Lil' Wayne

Light the torch  
It's lit, we lit  
Ain't that what the young kids say these days?  
(Lebron)

The kid got State Farm insurance  
That three point from J.R's the purest  
We got that play hard endurance  
We here to stay, yall the tourists  
The king on his throne, now it's on  
Kyrie just destroying the zone  
The isolation, double team  
He driving this shit, all his dishes be clean  
Tatted up like J.R Smith  
What was that sound? That was swish  
Shoutout to Shumpert and Trist  
They got the rebounds and defense  
Stop all that crying about Delly game  
You know Lebron want hella rings  
You know lil Kev got hella range  
Y'all been down with T. Lue since he was wearing braids  
Here comes the fast break, just get out the man's way  
It's lead by Lebron and he's sunk like an earthquake  
As soon as he dunking we all feel the world shake  
Like arrivederci, all hail the king  
The city on his shoulder like barbell on strings  
But ain't no place like home  
That rope ain't too long and they gon' pull it off  
The king want his crown back, he never took it off  
Tunechi

I know I'm being cavalier
