

# Prostitute

Lil' Wayne

Young Moolah, baby (Yeah)  
(Young money, alright, yeah)  
Young Moolah baby (Young money)  
(Alright, alright, alright)

I wouldn't care if you were a prostitute  
And that you hit every man that you ever knew  
See it wouldn't make a difference  
If that was way before me and you girl  
See you don't ever have to worry about me  
As long as you keep it real  
Whatever is on your mind, speak on how you feel  
Stay true to me and never lie to me  
And don't ever keep no secrets no matter whatever  
Girl you know what I mean (yeah)

Well if you don't then I'll explain  
You can be my Mrs. Wayne  
We can do the damn thing  
You see I had to tell my nigga Lil' Boo I met a girl like you  
'Cause I ain't never met another girl like you  
But I know what to do with a girl like you  
Three letters: "I do"

I wouldn't care if you were a prostitute  
And that you hit every man that you ever knew  
See it wouldn't make a difference  
If that was way before me and you girl  
See you don't ever have to worry about me  
As long as you keep it real  
Whatever is on your mind, speak on how you feel  
Stay true to me and never lie to me  
And don't ever keep no secrets no matter whatever  
Girl you know what I mean (yeah)

Well if you don't then I'll explain, I'll give up the game  
At the top of the arena there's my jersey with my name  
What's happening baby, what's happening baby  
You know you need to roll with a champion baby  
Any time I see you I get asthma baby  
Like th-th-that's my baby

I wouldn't care if you were a prostitute  
And that you hit every man that you ever knew  
See it wouldn't make a difference  
If that was way before me and you girl  
See you don't ever have to worry about me  
As long as you keep it real  
Whatever is on your mind, speak on how you feel  
Stay true to me and never lie to me  
And don't ever keep no secrets no matter whatever  
Girl you know what I mean (yeah)

Like for real though baby girl you ain't gotta keep no secrets it's just me  
and you  
You gotta keep it real  
Your pussy like a drug to me

You got me fiending  
If I could sing, if I could sing  
Damn baby if only I could sing  
Help me out little bra

I love it baby (yeah)  
I love it baby  
Don't you know I love it baby (I really did)  
I love it baby  
Like Young Jeezy I love it baby (yeah)  
I love it baby (I know you do too)  
I love it baby (Well I bet you will)  
I love it baby (yeah)

I wouldn't care if you were a prostitute  
And that you hit every man that you ever knew  
See it wouldn't make a difference  
If that was way before me and you girl  
See you don't ever have to worry about me  
As long as you keep it real  
Whatever is on your mind, speak on how you feel  
Stay true to me and never lie to me  
And don't ever keep no secrets no matter whatever  
Girl you know what I mean (yeah)

See they can say what they want girl  
But they'd never change my views  
'Cause they will never know you the way that I know you  
You see I'm tryna spend the rest of my whole life with you girl  
And if we gotta be alone so be it baby  
And if your friends can't understand you, you don't need them baby

(Yeah, yeah, yeah alright, yeah, see everything's alright, see everything's alright, you dig)

I wouldn't care if you were a prostitute  
And that you hit every man that you ever knew  
See it wouldn't make a difference  
If that was way before me and you girl  
See you don't ever have to worry about me  
As long as you keep it real  
Whatever is on your mind, speak on how you feel  
Stay true to me and never lie to me  
And don't ever keep no secrets no matter whatever  
Girl you know what I mean (yeah)
