

Her

Lil Xan

You was eating off my ego
Need a preacher she the devil
Can't defeat her only think
That I should
I should deceive her, hey
Yea, I should deceive her
Yea, I should deceive her

Im a demon and you know it
Im a never with hell
And we chilling with the ex's
Yea
I mean there's is not no women
Rest In Peace to every legend
Cheetos for my breakfast
You talk a lot about me
Im the only Mexican who smoked a blunt on CNN
Now they wanna be my friends
How the fuck did you get in? Yea

Ice coffee with vanilla that's my favorite flavor
I admire you
Can I spend more time with you?
We were neighbors, we were strangers
Now I think about her every day, Yea
Yea every day

Her eyes so bright when they hit the light
I almost fainted
I almost fainted
Her eyes bright when they hit the light I almost fainted
Yea, I almost fainted
Girl I love you

I was eating off my ego
Need a preacher she the devil
Can't defeat her only think
That I should
I should deceive her
Yea, I should deceive her
Yea, I should deceive her
I was eating off my ego
Need a preacher she the devil
Can't defeat her only think
That I should
I should deceive her
Yea, I should deceive her
Yea, I should deceive her

I'm at the top
You suckin' cock
I don't sell rock
You is a opp

I was eating off my ego
Need a preacher she the devil
Can't defeat her only think

That I should
I should deceive her
Yea, I should deceive her
Yea, I should deceive her
I was eating off my ego
Need a preacher she the devil
Can't defeat her only think
That I should
I should deceive her
Yea, I should deceive her
Yea, I should deceive her
