Lil Xan

(Kinfolk Jon)

Off this Mega Pain, she call me Johnny Depp  
She tell me she need drugs  
But we can spend that guap on other shit, my watch came with a flood  
Please don't press me cause I'm pushing shit  
Wooh

My blunt on blueberry, how I be stepping on shit like Ludacris  
Fuck that married shit I'm basically locked in with this cougar bitch  
Pulled up out the lot but I still told that bitch to Uber here  
She don't got no drip I had to buy that bitch to buy some newer gear  
All my shit on Big, y'all take baby steps  
Don't play me like no kid, bust down watches full of VVS  
She think she still in love with me, my trap house CVS  
I pull up like the government, can't locate me on GPS

Back from the dead with a dot on my head  
And bitch in my lap  
I'm a dog you a cat  
You a lame you simp  
Yeah I'm better than you  
No matter the weather, I weather the storm  
Rain shine sleet hoe  
Ask my homies yeah they know  
What goes around comes around, don't ask me for no feature bro  
I'm tired of all y'all hating folk  
Y'all probably never fucked a hoe  
I'm troubled from these substances  
A product of the industry  
I'm proud to say I'm finally clean  
Thank god I ain't never OD, yeah  
Thank god I ain't never OD

I'm tired of all these people that said they have my back  
When it came down to it, I'm like where the fuck y'all at?  
This and that, no excuses, let's pause, take it back  
Life lessons  
What you learn? What I learn? Yeah yeah yeah yeah
