Yea, and I really miss your heart shape kisses  
All the time that we spent, yea, I miss those  
Yea, I miss those

Back in high school we were past notes  
[?] lovers, first sight  
When I sight  
Nigga seem something more prettier, yeah

And I really miss your heart shape kisses  
And I really miss your heart shape kisses  
And I really miss your heart shape kisses  
And I really miss your heart shape kisses

My demons walk with me  
Heaven no, I don't see  
My demons walk with me  
Heaven no, I cannot see

The light shine so bright, yeah  
When I'm in the darkest places, yeah  
Cross faces  
My favorite places  
Cold hands  
Flinging rob a bands

Back in high school you thought I was funny  
Then the weather change when you blast somebody  
Never felt this pain, so betrayed I  
Laid up in my bed with the pillow on my face, yea

Popi'n out was suffocate, yeah  
I might just go die a day, yeah  
I might just go die a day, yeah  
I might just go, yeah  
I might just go...
