

Burn It Blue

Lila Downs

Burn this house
Burn it blue
Heart running on empty
So lost without you

But the night sky blooms with fire
And the burning bed floats higher
And she's free to fly

Woman so weary
Spread your unbroken wings
Fly free as the swallow sings
Come to the fireworks
See the dark lady smile
She burns

And the night sky blooms with fire
And the burning bed floats higher
And she's free to fly

Burn this night
Black and blue
So cold in the morning
So cold without you

And the night sky blooms with fire (Y la noche que se encendia)
And the burning bed floats higher (Y la cama que se eleva)
And she's free to fly (A volar)

And all of the dark days
Painted in dark grey hues
They fade with the dream of you
Wrapped in red velvet
Dancing the night away
I burn

Midnight blue
Spread those wings
Fly free with the swallows
Fly
One with the wind

Y él es flama que se eleva
Y es un pájaro a volar
Y es un pájaro a volar
En la noche que se encendió
El infierno es este cielo

And the night sky blooms with fire (Y ella es flama que se eleva)
And the burning bed floats higher (Y es un pajaro a volar)
And she's free to fly
Just a spark in the sky (en una noche que se encendia)
Painting heaven and hell much brighter (es estrella de oscuridad)

Burn this house
Burn it blue
Heart running on empty

So lost without you
