Say him cyaa take the stress  
My baby told me that he's going away  
Say him bound fi find the best  
I tell him I'm the best  
That's out there  
He said that he no longer can  
Baby please, beg me haffi beg you, just a second chance

Can we fall in love like we did before  
Can I show you how much I adore... you babe  
Come make we go fall in love  
Know you love the style, especially the rub-a-dub  
Can we fall in love like we did before

Say love ain't perfect  
So much that we've been through  
Giving up ain't worth it  
So come mek we get stronger with love  
I tell you seh the loving that we got it never normal...  
It did sent from above  
You filled up my heart with love, uh  
Nobody ever touch me like you do-o-o  
So just fall, let's forget it all  
And baby make we fall in love once more

Can we fall in love like we did before  
Can I show you how much I adore you babe  
Come make we go fall in love  
Know you love the style, especially the rub-a-dub

Happier times in this nostalgic state of mind  
No haffi worry if another lady you giving your time  
You gave me your heart I held it like a dime  
Why now, you giving me bad mind  
Remember when we spoke of thick and thin we were preparing for these days  
When we had to see comfort in each other's fate  
In this love we got  
Tell me what you're speaking of  
Leaving what  
No, I don't believe in that

Can we fall in love like we did before, baby  
Can I show you how much I adore you babe  
Come ya make we go fall in love  
Know you love the style, oh yes you miss the rub-a-dub  
Can we fall in love like we did baby
