

# Nowhere To Run

Lillix

Let's see, believing  
Heartbeat, your breathing in  
A dream is calling  
On knees, you're falling in  
Oh, you're falling in

You will keep on running  
And I will keep on holding on  
I've got a lot to say  
Before you turn away  
What are you hiding from?  
When you got nowhere to run  
When you got nowhere to run

It's time for talking  
Inside, you're walking away  
From fear my darling  
I'm here for you everyday

I've got a lot to say  
Before you turn away  
What are you hiding from?  
When you got nowhere to run

You will keep on running  
And I will keep on holding on  
I've got a lot to say  
Before you turn away  
What are you hiding from?  
When you got nowhere to run

Feel like I got no friends  
I'll only lose not when  
I'll be alone 'til the end  
And I got nowhere to run

Feel like my heart is torn  
Thinking ''why was I born''?  
You're not alone, my friend  
When you got nowhere to run

Feel like I got no friends  
I'll only lose not when  
I'll be alone 'til the end  
And I got nowhere to run

Feel like my heart is torn  
Thinking ''why was I born''?  
You're not alone, my friend  
When you got nowhere to run

You will keep on running  
And I will keep on holding on  
I've got a lot to say  
Before you turn away  
What are you hiding from?  
When you got nowhere to run

...

You will keep on running  
And I will keep on holding on (it's alright, believe me)

You will keep on running  
And I will keep on holding on (it's alright, believe me)  
I've got a lot to say  
Before you turn away  
What are you hiding from?  
When you got nowhere to run  
When you got nowhere to run  
(it's alright, believe me)
