

# Through The Night

Lillix

Take a seat  
Hear me out  
These feet  
Gotta cover ground  
All alone  
In the dark  
Pick up the piece that fell apart

Start taking over  
Instead of waiting  
I won't stand for nothing  
Contemplating here  
When the music  
Is tired of fading  
I stand for something  
Keep it playing  
Through the night

Breaking in  
Tearing down  
All the walls  
Built around  
Time to feel  
What it takes  
I won't make  
The same mistakes

Start taking over  
Instead of waiting  
I won't stand for nothing  
Contemplating here  
When the music  
Is tired of fading  
I stand for something  
Keep it playing  
Through the night  
Through the night

I'm not letting go  
I'm not caving in  
I'm ready to blow  
And you should know  
You should know

I'm taking over  
Instead of waiting  
I won't stand for nothing  
Contemplating here  
When the music  
Is tired of fading  
I stand for something  
Keep it playing  
Through the night  
Through the night
