

## Blank Expression

Lily Allen

Snow is falling all around  
Seven o'clock and the roads are blocked  
So i walk downtown  
There's no one else around

I look in the bar and immediately  
I sense daydream  
Look at me girl as if i was some kind of  
A total stranger

Where did you get that  
Blank expression on your face  
Where did you get that  
Blank expression on your face

The streets are dark  
And there's no one about  
I wander home  
And all the lights are out  
I keep wondering

Where did you get that  
Blank expression on your face  
Where did you get that  
Blank expression on your face

Where did you get that  
Blank expression on your face  
Where did you get that  
Blank expression on your face
