

# Pushing Up Daisies

Lily Allen

...few drinks  
Spit this out  
But I really really miss you  
When you're not around

Oh, I don't wanna freak you out  
But I'm probably gonna freak you out  
Should shut my mouth but  
Lately, I've been thinking 'bout babies  
Having part of your babies  
I can take your name, just  
Tame me, [?]  
Soon we'll be pushing up daisies  
Just you and me, babe

Baby I can see that you're scared  
I'm not going anywhere  
Promise you don't need to be scared  
I'm not going anywhere  
Baby I can see that you care  
I'm not going anywhere  
Promise you don't need to be scared

Catching up to feelings  
I wanna say this feels like love  
But when it comes to these things  
I seem to fuck it all up  
Getting a bit too big for all this stuff  
I don't wanna lose you  
Do you believe in us?

Oh, I don't wanna freak you out  
But I'm probably gonna freak you out  
Should shut my mouth but  
Lately, I've been thinking 'bout babies  
Having part of your babies  
I can take your name, just  
Tame me, [?]  
Soon we'll be pushing up daisies  
Just you and me, babe

When we're in our eighties  
Hoping you don't hate me  
One day, we'll be pushing up the daisies  
Pushing up the daisies

[?]  
And when I'm in my dressing gown  
I hope you give me a kissing down

When we're in our eighties  
Hoping you don't hate me  
One day we'll be pushing up the daisies  
Pushing up the daisies (x3)
