

For Keeps

Lily Kershaw

It could be nice
Passing Bourbon over ice
We could be free
I got time for you, and you got time for me
Look to the moon
Before it's gone out too soon
And I look to you
Before it gets, gets too hot in June

You let it out
You let it out
You let it out
And take me away

You let it out
You let it out
You let it out
And take me away

I know, you're not for keeps
Like pebbles on the beach
And this life is not for free
They're banking on you, and me

So you let it out
You let it out
You let it out
And take me away

Oh, you let it out
You let it out
You let it out
And take me away

I know, you're not for keeps
Like pebbles on the beach
And this life is not for free
They're banking on you
And they're banking on me

So you let it out
You let it out
You let it out
And take me away

Oh, you let it out
You let it out
You let it out
And take me away

I wish it could be that simple
I wish it could be that easy
I wish you would come and keep me
I wish you would come and keep me
