

## Now & Then

Lily Kershaw

So you're scared and alone  
On the couch and you're stoned  
You're longing to feel  
But nothing that's real  
So you kept me on the line  
But never close to be mine  
What was the dream that you had,  
When you woke up and you were sad?  
Remember the rooftop parties  
Remember the friends  
Remember the way I love you now  
And the way that I loved you then  
You spent all your time  
With a bottle of wine  
And we'll never know  
If our love could have grown  
'Cause you kept me on the line  
But never close to be mine  
What was the dream that you had,  
When you woke up and you were sad?  
Remember the rooftop parties

Remember the friends  
Remember the way I loved you now  
And the way that I loved you then  
The way that I love you now  
And the way that I loved you then  
Maybe we know all the ways this could go  
All the ways it would end  
Were you ever my friend  
Were you sad and alone  
When you broke on the phone  
What was I to you  
As you passed through  
Remember the rooftop parties  
Remember the friends  
Remember the way I love you now  
And the way that I loved you then  
Remember the rooftop parties  
Remember the friends  
Remember the way I love you now  
And the way that I loved you then
