

Sunshine

Lily Meola

Dark clouds hanging all around and I've cast out all my luck
I tend to push everybody out when I'm close to giving up
I turn down every helping hand when I need some picking up
Why do I gotta block it out when I'm most in need of love?

Here we go again, such a strange feeling
Stuck inside my head and my heart's beating
Heavy in my chest and I can't even
Find the words to let you know

Stay close to the people who feel like sunshine
When you're lost, feeling low, let you know you're alright
Shining like a star on your darkest night
No matter where you are, you can see the light
Stay close to the people who feel like sunshine

Shadows everywhere I go and it's hard to see the end
Tied strings and a puppet show, maybe I just need a friend

Here we go again, such a strange feeling
Stuck inside my head and my heart's beating
Heavy in my chest and I can't even
Find the words to let you know

Stay close to the people who feel like sunshine
When you're lost, feeling low, let you know you're alright
Shining like a star on your darkest night
No matter where you are, you can see the light
Stay close to the people who feel like sunshine

I can feel it now
And it's all around
Close to the people who feel like sunshine
When you're lost, feeling low, let you know you're alright
(Know that you're alright)

Shining like a star on your darkest night
No matter where you are, you can see the light
Stay close to the people who feel like sunshine
Stay close to the people who feel like sunshine
