

I'm young  
I'm bold  
My flow  
I show  
I'm young  
I'm bold  
My flow  
I show

I call myself a boundless genome  
Don't fear the world  
The vision's ahead 'em  
Awake your brain and physical rein  
Yeah, we build up moving tower  
Dismantle straight and vertical chains  
I refuse to be your slave  
We be the army, our own force  
Shoot flaming arrows to blocked zones  
Beyond culture time and space  
And the gender race and faith  
Moving feast  
Broad up east  
Spread up wide  
Claiming peace

We grow into millions  
Stretch up in millions  
Playing out  
Blow up with our flow  
We grow into millions  
Raise fucking billions  
Make it loud  
Redefine our role

Hell yeah yeah yeah yeah yeah  
World wide anthem, World wide anthem  
The world is pointing us  
Hell yeah yeah yeah yeah yeah  
Third wave's heading out us  
Third wave's heading out us

Open the circuit  
I'm fastest horse  
Move forward  
Making noise  
Make fluid form, liquid border  
I'm not a settler

Keep moving forward  
I'm a rowing boat  
Swimming web  
My vision's vast  
Genetic trait  
I rise from the core  
Innovative and liberate  
Break chains in free range  
We travel in and outer space  
Combine like Wi-Fi zone  
Expand the third eye's on  
To China  
To Russia  
To universal media  
Crossing a million rivers, force  
Meet up in horizon  
New sunrise on

We grow into millions  
Stretch up in millions  
Playing out  
Blow up with Our flow  
We grow into millions  
Raise fucking billions  
Make it loud  
Redefine our role

Hell yeah yeah yeah yeah yeah

I'm the one driving through the super highway  
I wanna see  
Shot guns for the signal  
I'll bet for a new era  
It's a new day  
Yeah we make it diverse  
I'm the one driving through the super highway  
We spread up  
Like super virus
