Did we die
Face the truth we self denyin'
Have we lost our own rhythm
No we still call out
Names and sing like whom
I see the world of new
Now it's on the alarm
Life's not all we've seen by
I'll never get in control
Sing out divine melody
From core of deep
Heal like psychic remedy
Bring out your hidden energy
Link up we creating new synergy

Face your heart and catch a feel
You can see it through
See it through
I'm on my new eye
Leaping k bound
You can't fuck up with my shit
It's out of earth bound

Calling me now
Calling me now

Bring on
I'm gonna mix and play up
Bring on
I'm gonna mix and play up
Bring on
I'm gonna mix and play up
Bring on
I'm gonna mix and play up

La li li la la...
Sping the universe
La li li la la...
Aye
La li li la la...
Sping the universe
La li li la la...
Aye
