I'm like a tree  
I have a lot of thoughts as if  
I have leaves  
The wind is blowing hard  
Well I don't really know  
Maybe I should just drop everything  
In the wind, baby

I came like the wind  
Seuttabarabarap  
Trying to shake you up  
Seuttabarabarap well  
When you come to me, when you see me  
You have to be careful

I don't want to hurt you  
How should I know?  
I'm trying to take you away  
I can't move  
I'm not going anywhere  
Just pass by baby

I've always been  
I've always been

Always there for you  
Wind  
Other winds have always  
Made me confused babe

I've always been  
I've always been  
Always there for you  
Wind  
I wanna love you too  
Break me

Feels like I'll fly away  
Like my thoughts  
Have wings  
It's flying far away  
Do I have to know  
Where I'm going?  
The wind blows

Let me take you there  
Wherever you wanna go  
Trust yourself to me  
If you don't care about me  
Then I'll be upset and if  
I can say a few more things  
When you're hot, I'll cool you down  
When you're cold  
I'll get out of the way  
When you're feeling lonely  
I'll always be by your side  
From east to the west  
I can feel you shaking  
From north to the south  
Just say yes babe

I came like the wind  
Seuttabarabarap  
Trying to shake you up  
Seuttabarabarap well  
When you come to me, when you see me  
You have to be careful

I don't want to hurt you  
How should I know?  
I'm trying to take you away  
I can't move  
But I wanna be with you  
Take me away baby
