

Lift your arms up  
Create your flows on  
It's enchanting  
Like pure magic

Circulate dreams, it gets puffed, ah  
Take to the breeze, float in the air  
It'll take you there  
We're getting higher

Ho, puffer, make it puffer  
Ho, higher, we can fly yeah  
Ho, to vision of Laputa  
Ho, going up, yeah, further

Broadcast the energy  
It's whole new chemistry  
Touch the pad, clouds on air  
Our plane goes anywhere, ya-woo

Can merge as unity  
The key is diversity  
Our synergy flows from the heaven and earth  
Like crystal sphere

Ho, puffer, make it puffer  
Ho, higher, we can fly yeah  
Ho, to vision of Laputa  
Ho, going up, yeah, further

Yeah, I'll fly to the stars  
Bridge upon  
Symphony in harmonize  
When the moon is full (Reunite)  
Moon is full

Walking along, milky way  
To the land of ours
