Demonic Resurrection

Limbonic Art

Sinister manifestations haunt in the dead of night
An odious visitation, hellish omens defy
Ungodly voices of devastation

In the ascendant, solely malignant
Rise in power and influence

With remorseless cruelty, nightmares assail
Spirits of impurity, shall prevail

A trancelike terror creeps into the mind

Incur the malevolence of darkness
Reflections of malediction
Morphed from the blackest void of evil

Demonic resurrection

Black amorphous shapes, ride on stygian waves
Nightmares incarnate, inhuman spirits awake

Diabolical forces are formidable
It curses the mind and tears apart the soul
Infestation, oppression, possession
Demonic resurrection

Ride on stygian waves of the black aether
To bring forth havoc (upon this earth)
Sowing seeds of torment
