

Feel Alright

Lime Cordiale

Oh oh, yeah I feel so down
Yeah, I need you now
To get back on the ground
Woah, yeah you get me high
Yeah, you get me by
You make me feel alright

I want you to feel alright
Yeah, I want you to feel alright

Lover took me to the sky
Dropped from way up high
And caught me just in time

I want you to feel alright
Yeah, I want you to feel alright

To kill my cover
Just send me on my way
Built a life of reputation
Blow it all in just a day

To kill my cover
It's easier to say
You are something of a lover
But it never goes away

Coming down
Run and chase the moon
I need a pick me up
Can you pick me up?

I want you to feel alright
Yeah, I want you to feel alright

Oh, yeah I feel so down
I don't wanna talk about it
When you're around

I want you to feel alright
Yeah, I want you to feel alright

To kill my cover
Just send me on my way
Built a life of reputation
Blow it all in just a day

To kill my cover
It's easier to say
You are something of a lover
But it never goes away

(I want you to feel alright)
(Yeah, I want you to feel alright)
(I want you to feel alright)
(Yeah, I want you to feel alright)
(I want you to feel alright,)

(Yeah, I want you to feel alright)

To kill my cover
Just send me on my way
Built a life of reputation
Blow it all in just a day

To kill my cover
It's easier to say
You are something of a lover
But it never goes away

To kill my cover
Just send me on my way
Built a life of reputation
Blow it all in just a day

To kill my cover
It's easier to say
You are something of a lover
But it never goes away
